

19 November 1971

TO: Chief, Senior Seminar

Howard Sollenberger of FSI asked several questions today about how the Senior Seminar was going and was especially interested to know if we could send them a syllabus. I said we could but that you and I had discussed this and thought it would be better to hold a meeting after the present running is completed. He suggested that we set one up around the middle of December. I take it his interest was rather strong.
